

Index of Interchangeable Parts

DIRECTIONS—Use this index to determine the interchangeable part number. For example, suppose you wish to know what cars have generator armatures interchangeable with the Auburn 76. Looking up this model on this page, you will find that the interchangeable part number for this generator armature is G13. Also note that at the top of the generator armature column it says, "Turn to page 80." Under G13 on page 674 you will find listed all the models using this particular generator armature.

A single series of interchangeable part numbers is used throughout the bearing pages. For example, the B67 Bevel Pinion Shaft Rear Bearings on page 102 are interchangeable with the B67 Differential Bearings on page 104, as well as with the B67 Rear Wheel Bearings on page 106. Therefore, if trouble is experienced in locating a given bearing in stock, it is advisable to look for its number throughout the bearing pages.

MAKE AND MODEL	Year	Bearings
